

Aditya Joshi

Applied AI / ML Engineer | MSc Artificial Intelligence & Human Factors
Coventry, UK | +44 7823618087 | adityajoshi2277@gmail.com | linkedin.com/in/aditya-joshi-123056354

PROFILE

MSc Artificial Intelligence and Human Factors student with a Computer Science background and hands-on experience in machine learning systems, neural networks, and applied software development. Skilled in building AI models from first principles including neural, fuzzy logic, and evolutionary systems. Focused on developing real-world AI applications, scalable software solutions, and human-centred intelligent systems.

CORE SKILLS

AI & ML: Neural Networks, Evolutionary Computing, Fuzzy Logic, GANs, VAEs, Transformers

Programming: Python, Pandas, Matplotlib, Data Analysis, Software Development

Professional: Problem Solving, Time Management, Independent Work, Communication

EXPERIENCE

Software Developer Trainee — Kiran Academy, Pune (Jan 2024 – Jan 2025)

- Built Python-based data analysis tool for student participation tracking
- Processed datasets using Pandas and visualised trends using Matplotlib
- Automated reporting workflows for academic insights

Food Delivery Associate — Zomato, India (Jul 2022 – Jan 2024)

- Delivered orders efficiently in high-demand environments while studying
- Managed logistics, payments, and customer communication independently
- Demonstrated reliability, discipline, and time management

EDUCATION

MSc Artificial Intelligence & Human Factors — Coventry University (2026–2027)

PG Diploma in Advanced Computing — C-DAC (2019–2020)

Bachelor of Engineering, Computer Science — Amravati University (2014–2019)

CERTIFICATIONS

Salesforce Certified Administrator | Salesforce Platform Developer I | AI & Machine Learning Data Science Bootcamp |
Microsoft Technology Associate (HTML5) | IELTS
